

POPA Suites

**A NEW CONCEPT IN HOSPITALIZATION FOR CATS,
THAT GIVES POSTOPERATIVE STRESS REDUCTION,
MORE COMFORT FOR THE PATIENT AND PLUS
SAFETY FOR VETERINARY.**

- INTERIOR DOORS to isolate the patient

You can change the food or cat litter boxes without having contact with them. The independent system in each compartment doors ensures protection for veterinary and comfort for the cats.

- RESISTANT MATERIAL

Made in very resistant material.
Guarantee of durability.
Resistance to abrasions, stains and heat.

- EASY AND FAST OPENING 180° opening doors and strong hinges

In Everest, we know that sometimes it is not easy to work with cats that occasionally get very nervous and even violent. POPA Suites, has been created to facilitate the work of the veterinarian, always thinking about the animal welfare.

- POSSIBILITY OF ACCESSORIES (IV holder, thermometer, etc.)

- VENTILATION
Ventilation system for cats breathing and preventing small accumulation.

- BASIS rodable (optional):
Cleanability and displacement
